NAVY RESPONSES TO CAL-EPA COMMENT LETTER OF 11/8/98, RECEIVED
1/7/99

The Department of Toxic Substances Control and the Regional
Water Quality Control Board have reviewed the subject documents.
The subject documents support the Navy conclusion that all
reasonable possible discrete sources of PCB contamination in
Investigation Area A1 have been evaluated. The Navy also
concludes that no additional PCB program sites are recommended
for inclusion in the Navy IR program. We agree with this
conclusion and have no further comment on the subject documents.

call me at (510) 540-3816.

Sincerely,
